

POWER LEARNING™

THREE POWER LEARNING WORKSHOPS

THE PERFECT ESSAY

Students explore basic writing formats and learn to choose the most appropriate one for any essay. Overcome “Research Paper Anxiety” with simple Power Learning tools for conducting research; confidently answer any essay question on a standardized test using the “Never Fail” essay format.

CRITICAL THINKING & READING

Students improve reading comprehension to better understand challenging texts and author’s intent, develop critical thinking skills using the inquiry-based Socratic method, and learn how to weigh the pros and cons of different “right” answers.

GRAMMAR & PUNCTUATION

Students discover the underlying grammatical structure of sentences, learn simple steps to immediately improve their grammar, and master five methods to repair the most common sentence problems.

“My son enjoyed The Perfect Essay class! That’s quite a statement... a writing class during the summer for a guy who doesn’t enjoy writing!!! I am very impressed and I will spread the good word.”
